

Space Force Anthem
(to the Star Wars theme by John Williams)
Mike Delaney 11/2/18

Intro: “Sadly, our newest and proudest branch of the military was found to have no rousing, inspirational anthem...until now!” <sing the opening trumpet flourish>

Space Force
We are the Space Force
An all-male workforce
In tight-fitting suits

Space Force
As fast as a race horse
With a pew-pew-pew beam source
Our light sabers shoot

Our space ships looking down at our south borders
We'll blast every immigrant; we've got our orders
Look out space 'cause we're looking for a fight
No caravan can stand up to our might
Not even Middle Easterners...

Space Force
I'm joining the Space Force
It's from my Twitter source
Don't call it a kluge!

Yes, Space Force
We follow a great course
No uncivil discourse
It's gonna be YUGE!

<instrumental break A+B>

Space Farce
Don't call it a Space Farce
Though support is way sparse
It's gonna be cool

Space Farce
It's not a Space Farce
No, you're the big ARSE!
And clean coal is the fuel

No collusion!
No obstruction!
Witch Hunt!
Build the Wall!
Lock her up!

Don't pick on the Space Force
Now it's off to the golf course...
